Harvey Elite[®] Roof Tile

Harvey Elite[®] Roof Tiles is a premium lightweight, steel-based roofing solution designed to combine the aesthetic appeal of traditional tiles with advanced durability. Engineered for South African conditions, it provides superior weather resistance, long lifespan, and low-maintenance performance, making it ideal for both new builds and re-roofing projects.

Available in:

UV-resistant Acrylic colours: Burgundy, Dark Blue, Green, Terracotta

Fade-proof Stone Coated finishes: Midnight Black

Specification	Value
Overall Length	1675 mm
Effective Cover Length	1600 mm
Overall Width	397 mm
Effective Cover Width	369 mm
Substrate Thickness	0.35 mm
Mass per Tile	3.3 kg
Tiles per m ²	1.69
Mass per m ²	5.6 kg/m ²

Key Features & Benefits

Lightweight Construction

- Reduces structural load and timber costs
- Ideal for re-roofing over existing roofs

Exceptional Durability

- Unbreakable under normal conditions
- Resistant to cracking and tile breakage (even during hailstorms)
- Backed by a 20-year warranty - T's & C's apply.

Weatherproof Performance

- Wind, hail, and water resistant
- Low water absorption and reduced dust ingress

Low Maintenance

- No need for tile replacement
- Reduced long-term maintenance and repair costs

- Long-lasting stone-coated finish resists wear and fading

Attractive Design

- Compatible accessories for professional finishes (ridge caps, trims, etc.)

Easy Installation

- Lightweight and easy to handle
- Designed for fast installation with efficient overlapping system
- Suitable for both new installations and retrofits

Solar Compatible

- Compatible with solar panel mounting systems
- No need to compromise roof integrity
