HarveyCote[®] Pure Acrylic Roof Paint

HarveyCote[®] Pure Acrylic Roof Paint is a premium water-based, UV-resistant roof coating designed to provide long-lasting colour and weatherproof protection. Originally developed for Harvey roof tiles, it is suitable for a wide range of surfaces, delivering durable, fade-resistant performance in harsh outdoor conditions.

Specification	Value
Product Type	Pure acrylic roof paint
Finish	Low sheen
Base	Water-based
Density	1.3 g/cm ³
pH	8.0 - 10.0
Volume Solids	38%
Mass Solids	51%
Recommended WFT	100 - 130 µm per coat
Spreading Rate	6 - 8 m ² /L per coat*
Drying Time (Touch Dry)	±60 minutes
Recoat Time	±3 hours

Key Features & Benefits

Superior Weather Protection

- Provides a waterproof and weather-resistant coating
- Protects against rain, sun, and environmental exposure
- Suitable for all climatic conditions

UV & Fade Resistance

- Contains UV stabilisers for long-lasting colour
- Resistant to fading and discolouration over time
- Ideal for prolonged sun exposure

Durable Acrylic Formula

- High-quality pure acrylic composition
- Flexible, long-lasting coating performance
- Designed for extended roof life

Water-Based & Non-Toxic

- Environmentally friendly formulation
- Low odour and easy to apply
- Safe for use on residential projects

Quick Drying

- Touch dry in approximately 60 minutes
- Recoat able after ±3 hours (depending on conditions)
- Enables faster project completion

Easy Application & Maintenance

- Easy to apply using standard tools
- Smooth, low-sheen finish
- Easy to clean and maintain
