Total Coated Thickness	± 1.5 mm
Standard Length	3.6 m
Weight	3.185 kg/m
Minimum Roof Pitch	10°
Available Colours	Midnight Black, Greystone, Dark Brown, Light Brown

Key Features & Benefits

Superior Weather Protection

- Natural stone-coated surface protects against UV degradation
- Resistant to heavy rain, hail, and harsh environmental conditions
- Excellent water-shedding performance, even on low-pitch roofs
- Long-term durability in demanding African climates
- Corrosion-resistant steel substrate for enhanced protection

Never Paint

- Natural stone granules provide permanent colour retention

- No repainting costs or ongoing roof maintenance requirements
- Premium aesthetic appearance for decades

Lightweight & Cost Effective

- Lightweight steel-based roofing solution
- Reduces loading on roof structures

Acoustic & Thermal Comfort

- Natural stone coating absorbs sound energy
- Significantly reduces rain and hail noise
- Creates a quieter and more comfortable interior environment
