

## BRASS GUIDE WHEEL

---

The 19MM 40/19BH guide wheel is a durable brass roller guide designed for use with Hillaldam sliding door systems. Engineered for smooth and stable door movement, it helps keep sliding doors properly aligned while reducing friction and wear for reliable long-term performance.

### Key Features:

- Manufactured from durable brass for long-lasting performance
- Designed for Hillaldam sliding door systems
- 19mm roller guide configuration
- Helps maintain smooth and stable door movement
- Reduces friction, wobbling, and operational noise
- Provides reliable door alignment and support
- Suitable for residential, commercial and industrial applications
- Designed for easy installation and dependable operation
