

GALVANISED SIDE FIX BRACKET

The A200 side-fix is a heavy-duty galvanised steel bracket designed for use with Hillaldam 200S sliding door systems. Built for strength and durability, it provides secure support and reliable track stability for smooth sliding door operation in residential, commercial and industrial applications.

Key Features:

- Manufactured from durable galvanised steel
- Designed for Hillaldam 200S sliding door systems
- Side-fix bracket design for secure track support
- Suitable for doors up to 200kg when used with compatible systems
- Provides reliable stability for smooth sliding operation
- Corrosion-resistant finish for long-lasting performance
- Suitable for residential, commercial and industrial applications
- Compatible with Hillaldam steel tracks and hardware systems
