

## Spec Sheet – Angle Equal

Angle Equal can be used for light construction

Angles come in different sizes therefor it can be used in light, medium and heavy engineering depending on size that is bought. Angles are also available in various grades

|                  |                                |
|------------------|--------------------------------|
| Code:            | AE                             |
| Use:             | Light structural applications  |
| Material:        | Mild steel grade (CQ)          |
| Sizes Available: | Thickness Options:             |
| 25mm x 25mm      | 2mm, 2.5mm, 3mm, 5mm           |
| 30mm x 30mm      | 2mm, 2.5mm, 3mm, 5mm           |
| 40mm x 40mm      | 2mm, 2.5mm, 3mm, 4mm, 5mm, 6mm |
| 45mm x 45mm      | 3mm, 4mm, 5mm                  |
| 50mm x 50mm      | 3mm, 4mm, 5mm, 6mm, 8mm        |
