

**DIAMOND MESH GATE**

A diamond mesh gate is made from a frame consisting of round tube and is covered with diamond-shaped mesh. It is available in single or double leaf; and medium or heavy frame sizes. Medium size diamond mesh gates use 38mm x 2mm tubing for the gate frame, and heavy size gates use 42mm x 2mm. The gates can be used on farms between camps, as well as for residential fencing.

**Single leaf – medium sizes available:**

Height (mm)	900	1200	1800	2000	2400	3000
Length (mm)		750	750	750		
		900	900		900	
		1050				
		1200	1200			
		1500	1500			
		1800	1800			1800
				2400		
				2500		
				2700		
				2800		
				3000	3000	
				3200		
		3600	3600			
			4000		4200	
		4200	4200			
			4300			
			4800			
		5000				
		6000				

**Single leaf – heavy sizes available:**

Height (mm)	1200	1800	2400
