

## BONDED WASHER EPDM

---

Bonded washers create a seal that provides a greater degree of corrosion protection than conventional washers. They help seal joints, prevent leakage and provide cushioning under the head of the bolt or nut. Our bonded washers are made from EPDM, an extremely durable synthetic rubber.

### **Product Specifications:**

Sizes available:

- EPDM 6 x 19mm.
- EPDM 6 x 26mm.

### **Product Application:**

Ideal for sealing joints and preventing leakage, these bonded washers are suitable for various applications requiring enhanced corrosion protection and cushioning.
