

INGCO PLIER COMBINATION 200MM HIGH LEVERAGE CHROME VANADIUM

The high leverage design provides increased gripping power with less effort, while the chrome vanadium construction ensures durability and resistance to corrosion. The 200mm size makes it suitable for a wide range of tasks, offering a good balance between strength and manoeuvrability.

What Is In The Box

- 1 x Ingco high leverage combination plier (HHCP28200)
- Packed by half double blister

Product Specifications

- Size: 200mm (8")
- Material: Cr-V
- Surface Treatment: Black finish and polish
- TPR three colour handle for strong grip and comfort
- Energy saving 30% more than normal pliers
- Function:
 - crimping
 - nail holder
 - spanner
 - deburring

Product Applications

- General Gripping and Holding:
 - Securely grasping and holding objects of various sizes and shapes.
 - Providing a strong grip for turning or twisting items.
- Wire Work:
 - Cutting electrical wires and cables.
 - Stripping insulation from wires.
 - Bending and shaping wire for electrical or craft projects.
- Fastener Manipulation:
 - Gripping and turning nuts, bolts, and other fasteners.
 - Removing stubborn or rounded-off screws and nails.
- Plumbing:
 - Tightening or loosening pipe fittings.
 - Holding pipes steady during cutting or threading operations.
- Automotive Repair:
 - Removing and installing small parts and components.
 - Manipulating hoses and cables in tight engine compartments.
- Construction and Carpentry:
 - Pulling nails or staples from wood.
 - Adjusting or removing small hardware.
- Metalworking:
 - Bending and shaping small metal pieces.
 - Holding metal parts during welding or soldering.
- DIY and Home Repairs:
 - General household repairs and maintenance tasks.
 - Assembling furniture or appliances.
- Crafting:
 - Manipulating wire, beads, or other small objects in jewellery making.
 - Assisting in various craft projects requiring precise gripping.
