

FASCOR HAND RIVETER

The Fascor hand riveter is ideal for high quality hand riveting, and it is used for tasks requiring strong and permanent fastening without the need for welding or adhesives. This tool features four nozzles that accept 2.4mm, 3.2mm, 4.0mm, and 4.8mm diameter rivets. The tool is ergonomically designed to suit all hand sizes and the handle is made of durable PVC. The tool body is fabricated from steel and coated with epoxy, and it is equipped with stainless steel jaws.

Product Specifications:

Height: 8.1cm.

Length: 29.5cm.

Width: 12.8cm.

Rivet Sizes: 2.4 mm, 3.2 mm, 4.0 mm, 4.8 mm.

Product Application:

The Fascor hand riveter is suitable for various applications, such as metalwork (joining and repairing metal sheets, assembling frames), construction (securing gutters, roofing, siding), automotive (fastening body panels, interior components, repairing trailers), and electronics (securing components in enclosures, etc.).
