

INGCO IMPACT SOCKET SET 1/2" 10PC

The Ingco HKISSD12101 sockets are made of CrMo (chrome-molybdenum) steel, which is a high-strength, heat-treated alloy that offers superior durability and resistance to wear and tear. The black phosphate coating on the surface of the sockets provides protection against rust and corrosion. The sockets are compatible with both hand and power tools and are suitable for use with a variety of applications, including automotive repairs, construction, and industrial maintenance. They are designed to withstand high torque and impact, making them ideal for use with impact drivers and wrenches.

WHAT IS IN THE BOX

- 1 x set of 10 1/2" sockets (product code: HKISSD12101)
- Packed by plastic hanger
