

WHEEL KIT 100 | V PROFILE

This wheel kit is ideal for all domestic sliding gate applications.

Product Specifications:

- 100mm wheel diameter for longer life.
- Slim line weld-on side plates for low gate clearance, making it pet-friendly.
- Self-cleaning properties and low rolling resistance.
- V profile designed for use on a 16mm diameter round track.
- Uses a 6201 bearing and 12mm diameter shaft.
- Kit includes 2 wheel assemblies and 2 roller guides.

Product Application:

Ideal for all domestic sliding gate applications and offers very good load capacity. For best results, use with a 16mm diameter EN8 bright track.
