

WHEEL KIT 60 | RADIUS PROFILE

The wheel kit is suitable for light-duty residential single driveway sliding gates.

Product Specifications:

- Self-cleaning properties and low rolling resistance.
- Deep profile makes the radius wheel more difficult to lift off track.
- Designed for use on a 16mm diameter round track.
- Uses a 6201 bearing and 12mm diameter shaft.
- Kit includes 2 wheel assemblies and 2 roller guides.

Product Application:

Ideal for light-duty residential gates, this wheel kit provides reliable load capacity. For best results, use with a 16mm diameter EN8 bright track.
